PORTFOLIO
www.dfbrown.me

I am a designer/developer with experience crafting cross-browser compliant web sites and applications. I possess strong project management skills with the ability to lead backend teams in product development, and my strengths include visual design, user experience design, and front-end development. I love building useful websites and applications that are high quality user experiences.

WORK EXPERIENCE

Fame Foundry
2011 - Present

DIRECTOR OF UX/UI Development

Lead F/E developer for projects that encompass enterprise level e-commerce applications, social ecosystems, marketing websites and back-office applications. Duties include visual design, UX/UI design, all aspects of F/E development and unit testing in .NET and LAMP development environments.

Lead the backend team's daily work flow, set priorities and oversee the daily production in an agile development environment.

Responsible for maintaining and evolving the F/E code base, updating with new functionality as browsers add support.

Participate in creating spec creative for proposals to obtain new business.

Participate in client meetings with business owners & CEO's as the UX/UI authority.

Walker Marketing
2007 - 2011

INTERACTIVE DESIGNER / FRONT END DEVELOPER

Designed and developed marketing oriented websites, e-commerce websites, back office dashboards, flash modules and municipal websites with back office functionality.

Responsible for everything from organizing information for databases to building frameworks and working directly with backend programmers during activation in a classic ASP and LAMP environments.

Maintained collocated Windows and LAMP servers as well as managed all website deployment and change control systems.

Visual Grammar Design
2005- 2007

PRINCIPAL

Owned and operated a boutique design consultancy. Projects included all facets of web development, brand development, and graphic design projects where website development and brand strategy was involved. Clients ranged from real estate developers to ad agencies, continuing similar types of projects from previous work experience.

Strickland Advertising
1997 - 2004

ART DIRECTOR/SENIOR ART DIRECTOR

Designed award winning integrated marketing campaigns for companies with sales of over 300 million including S&D Coffee, McJunkin Corporation and Conbraco Industries. Responsible for all facets of website design, development and maintenance in both LAMP & classic ASP environments. Developed data collection systems for importing web based data into manufacturing MRP systems.
